Oct 2010

An 'Ace' start to the new term!

Pupils are already half way through their study support programme and have enjoyed doing activities including: Interactive quizzes using the Optivote System, Education City, mathematical-team challenges, Café quiz, taking photographs at the University of Nottingham and video editing. Pupils have also done lots of activities in the ICT Suite including making a name badge and taking part in the Playing for Success Mathematics Challenge.

Schools attending this term:

Ambleside Primary

Middleton Primary

Berridge Junior

Hempshill Hall Primary

Budding Reporters?

In partnership with the Nottingham University Widening Participating team, pupils from Hempshill Hall primary school are working with Tom Walsh to plan, produce and review a video news report. The project is based around bullying.

Pupils will be researching the topic then writing scripts, filming and editing their report then sharing them with the rest of the group. Pupils will take on various roles including, script writers, reporters, camera operators, producers and editors.

We look forward to seeing the finished videos!

Sportwall

Pupils from Ace Base will have the chance to use the Sportwall this term and will enjoy using the hundreds of game combinations which are available.

The Sportwall combines the fun of a computer game with a powerful cardio-vascular workout, which quickly develops; excellent ball tracking skills, quick hands, fast feet and superior hand to eye co-ordination.

Graduation

On Monday 6th December pupils, their families and teaching staff will be invited to a Graduation Ceremony at the University of Nottingham to celebrate the pupils' achievements whilst attending the Study Centre.

Invitations with further details will be given to pupils during their study support sessions.
